

CONCEPTION XR FOR MEN

ConceptionXR is a nutritional supplement that may or may not be recommended for you to use. This information is being provided in case it is necessary after a semen analysis is performed and reviewed by your physician.

Our physicians recommend ConceptionXR to promote male fertility.

Based on your semen analysis results, your physician may prescribe either Reproductive Health Formula or Motility Support Formula (if there is a problem with motility). If your semen analysis is normal, a daily multivitamin is recommended.

Ordering Instructions:

Conception XR does not require a prescription and is ordered from Theralogix.

Call 1-800-449-4447 or go to their website: www.theralogix.com

For preferred pricing, use the provider referral code (PRC) below that corresponds to your physician:

Michael C. Allemand, MD	927286
Kathryn L. Honea, MD	904532
Virginia L. Houserman, MD	914802
